LeetCode Profile - https://leetcode.com/u/akshaygudur/

EDUCATION

PES University, RR Campus

Compuuter Science and Engineering

SKILLS

- Programming Languages – Python, Java, C, C++
- Tools/Frameworks – Tensorflow
- Strong Problem - Solving Abilities
- Quick Leaner and Adaptable

PROJECTS

Worked under a PESU I/O project using Tensorflow for which our team gained the distinction award. The project included in improvising models which helps in better accuracy and speed of responses by a great margin. The model was extracted from a research paper which was there after implemented by my team.

INTERESTS

- Artificial Intelligence /Machine Learning
- Quantum Computing
- Cryptography /Cybersecurity

HACKATHONS

Terrathon Hackathon – AI Dermatologist Assistant

-        Developed an ML-based skin disease and skin cancer detection system from uploaded images.

-        Integrated a Gemini-API-powered chatbot, prompt-engineered for precise symptom and remedy guidance.

Cryovault CTF Hackathon – Participant

-        Participated in a Capture The Flag (CTF) hackathon focused on cryptography, reverse engineering, and security challenges.

-        Solved practical challenges involving encryption techniques, binary analysis, and logical exploitation.
